### Introduction

### Definition

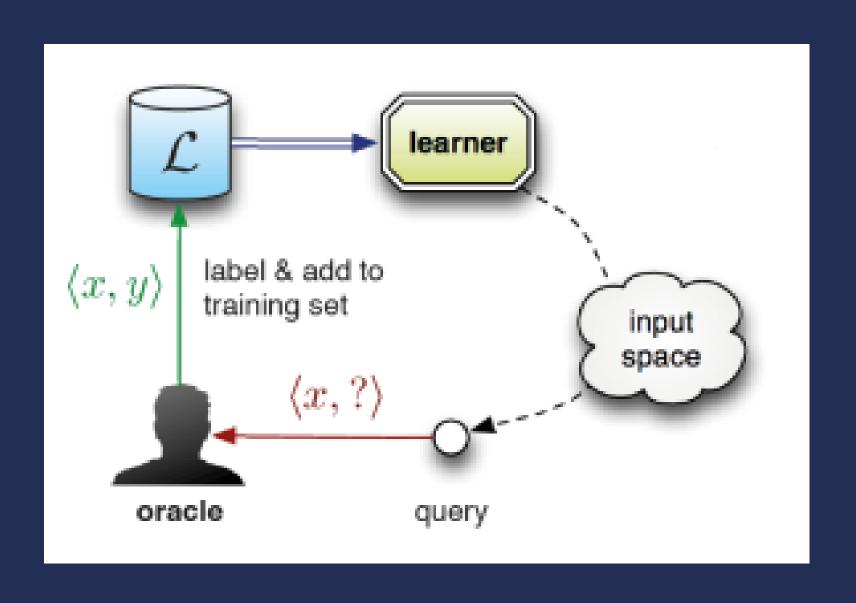

Active Learning is a machine learning approach where the algorithm selects the most informative data points, then queries an oracle (or some other information source) to label them with the goal of reducing the total amount of data needed to learn the model.

## Objective

Learning process optimization by strategically selecting which data points to label.

#### Active learning scenarios

How Data Passed to Model (Nature of Data)

Pool-Based Active Learning

Membership query syntheses

stream based sampling

#### **Active Learning Strategies**

Low Confidence Based Sampling

Margin Based Sampling

Entropy Based Sampling

**Query by Commit** 

## Methodology

- Data Sets
  - Balanced Datasets
    - Iris
    - digits
  - ImbalancedDatasets
    - BMI

- Used AL scenarios
  - Pool-Based Active Learning

- Appling 4 AL Sampling Strategies
- Applying Random Sampling
- Compare performance using Evaluation plotting

■ <u>BMI</u> unbalancing dataset preprocessing using oversampling to make data nearly balanced and increase performance.

## Experimental Results

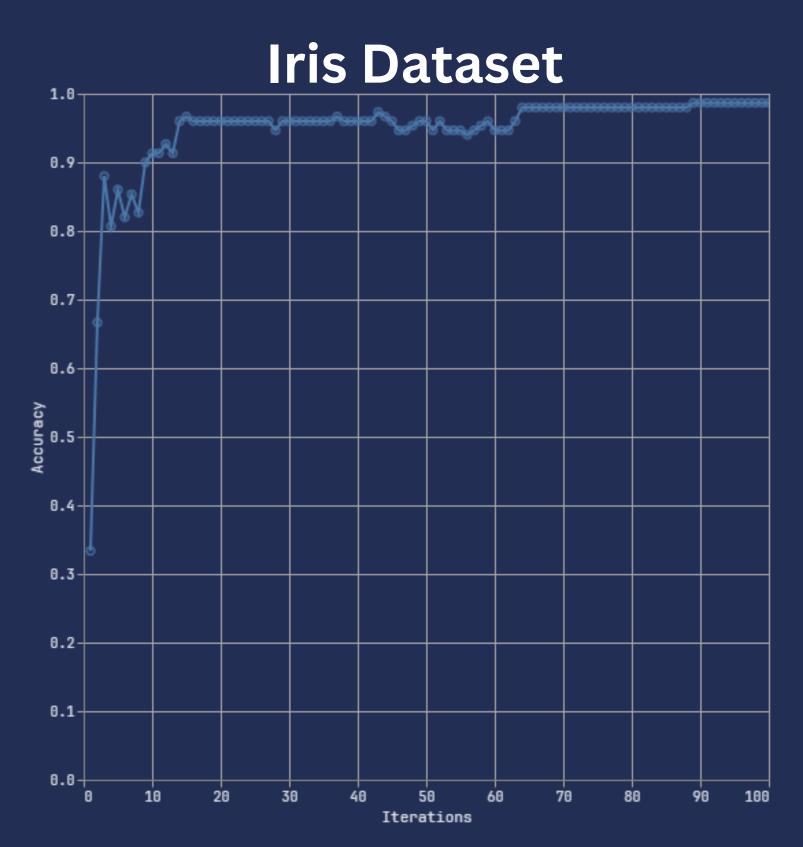

### Before active Learning

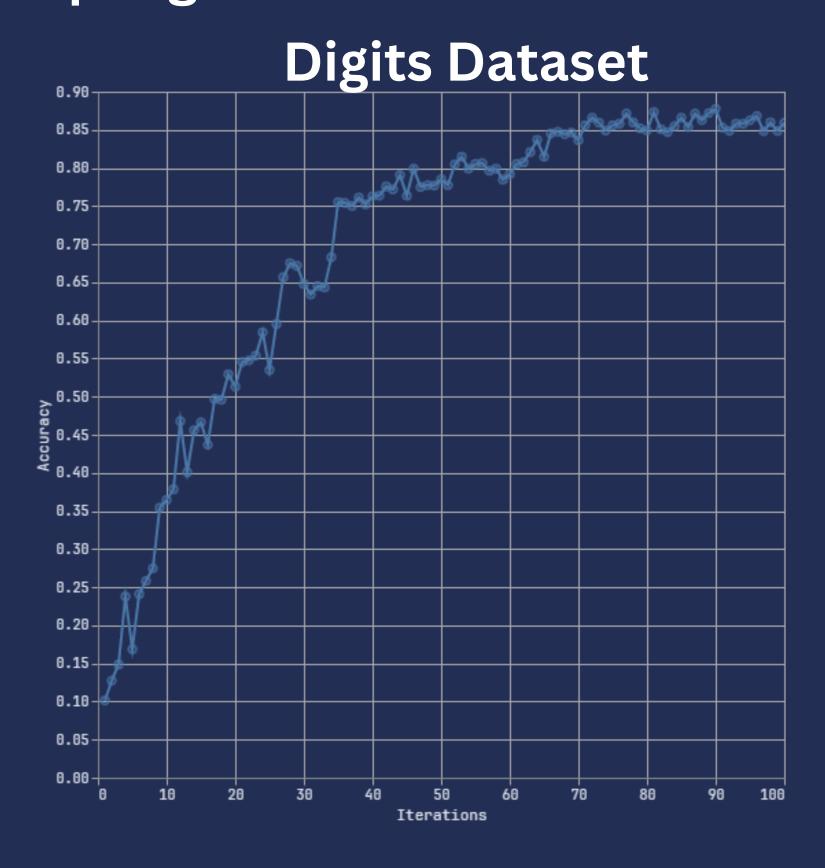

Iris Digits
Accuracy %98 %93

F1-Score %98 %93

### After Active Learning

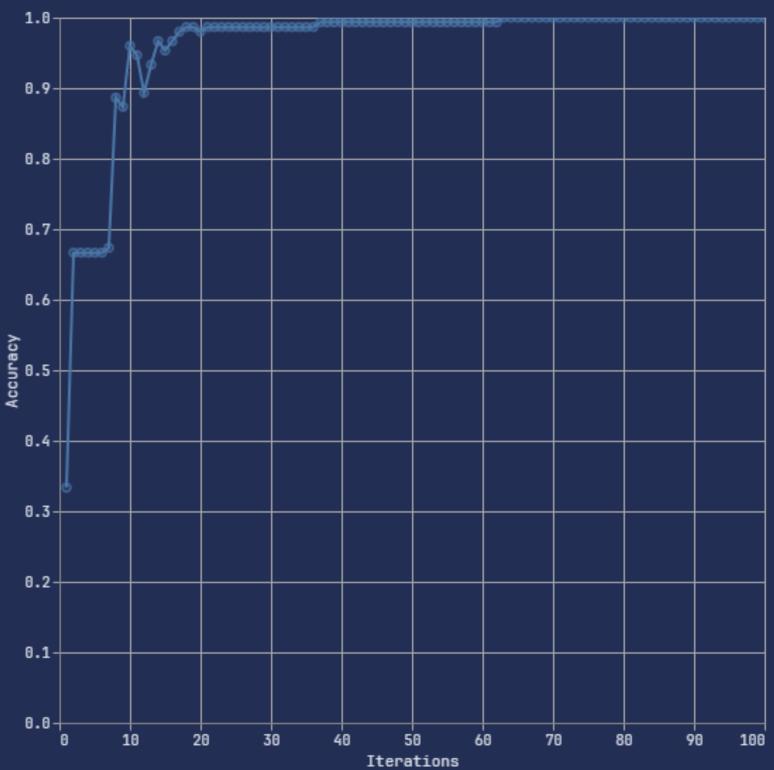

## Results on Balanced Datasets Random Sampling

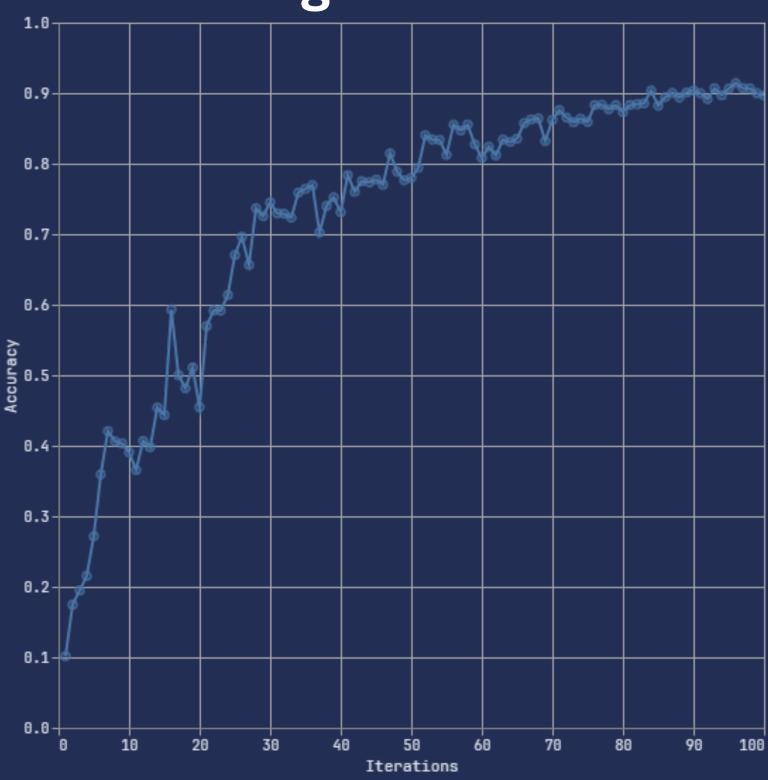

#### **Query By Committee**

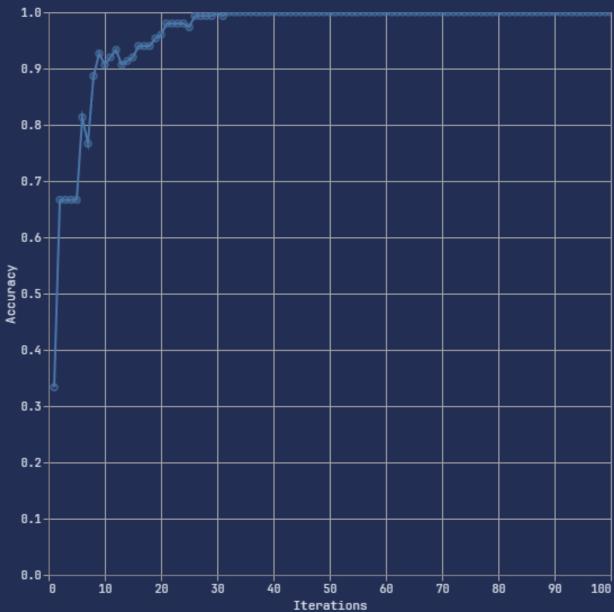

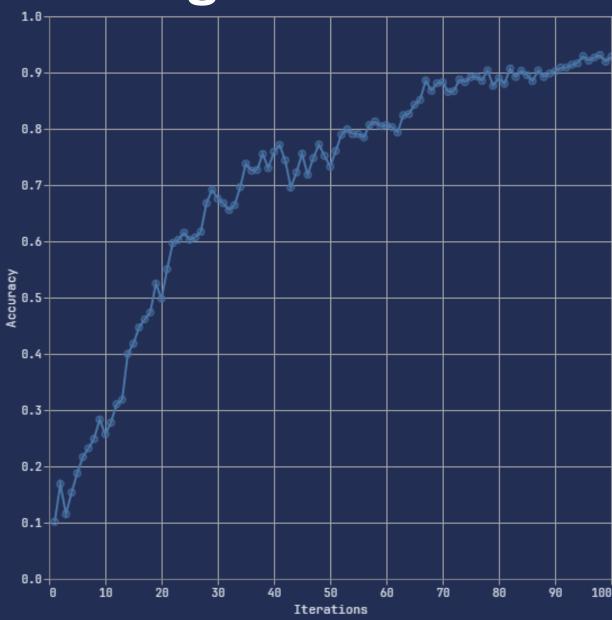

#### **Uncertainty Sampling with Least Confident**

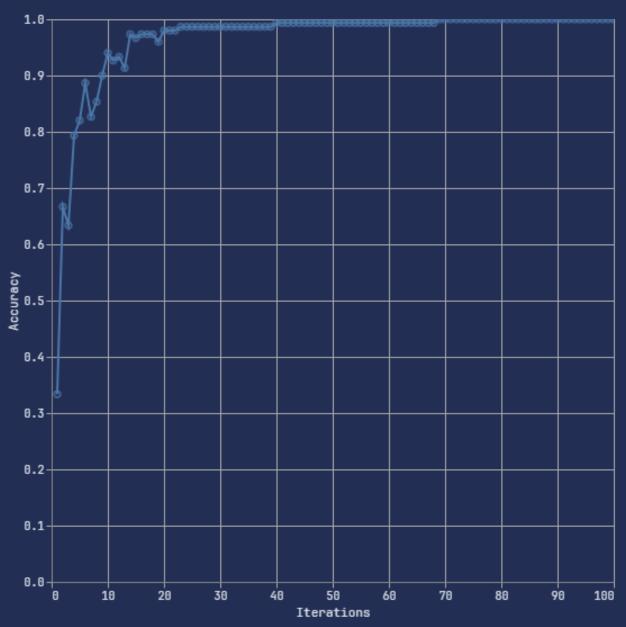

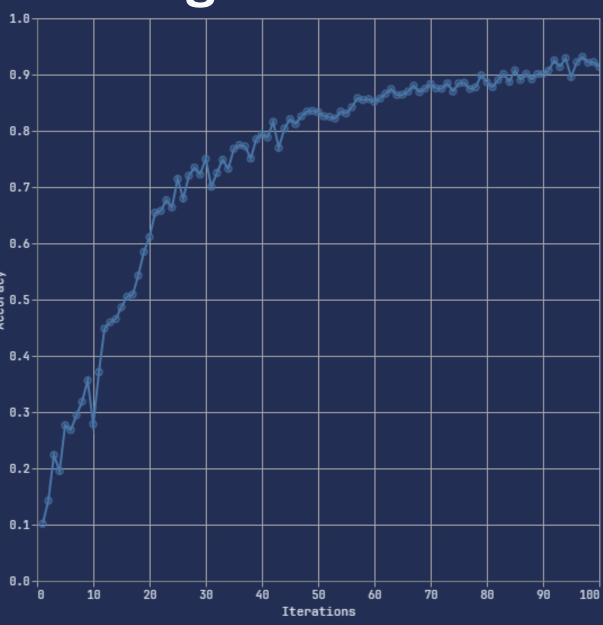

#### **Uncertainty Sampling with Margin Sampling**

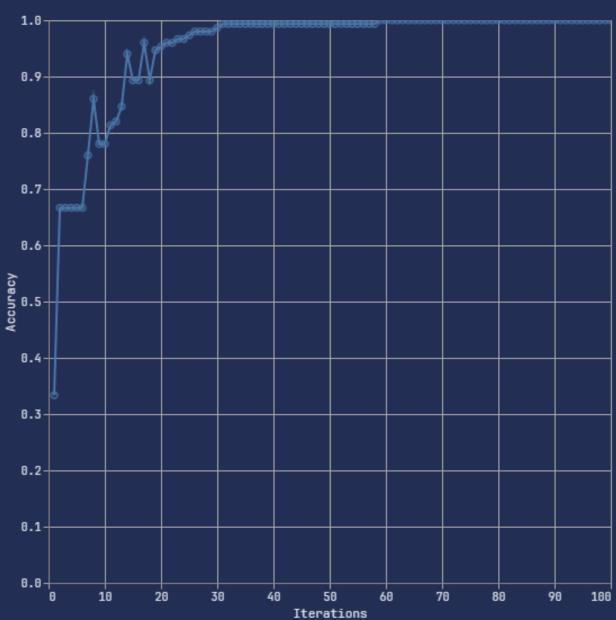

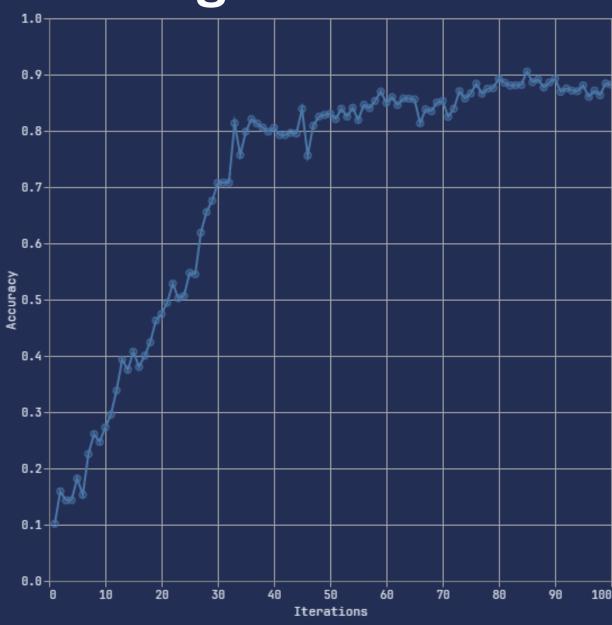

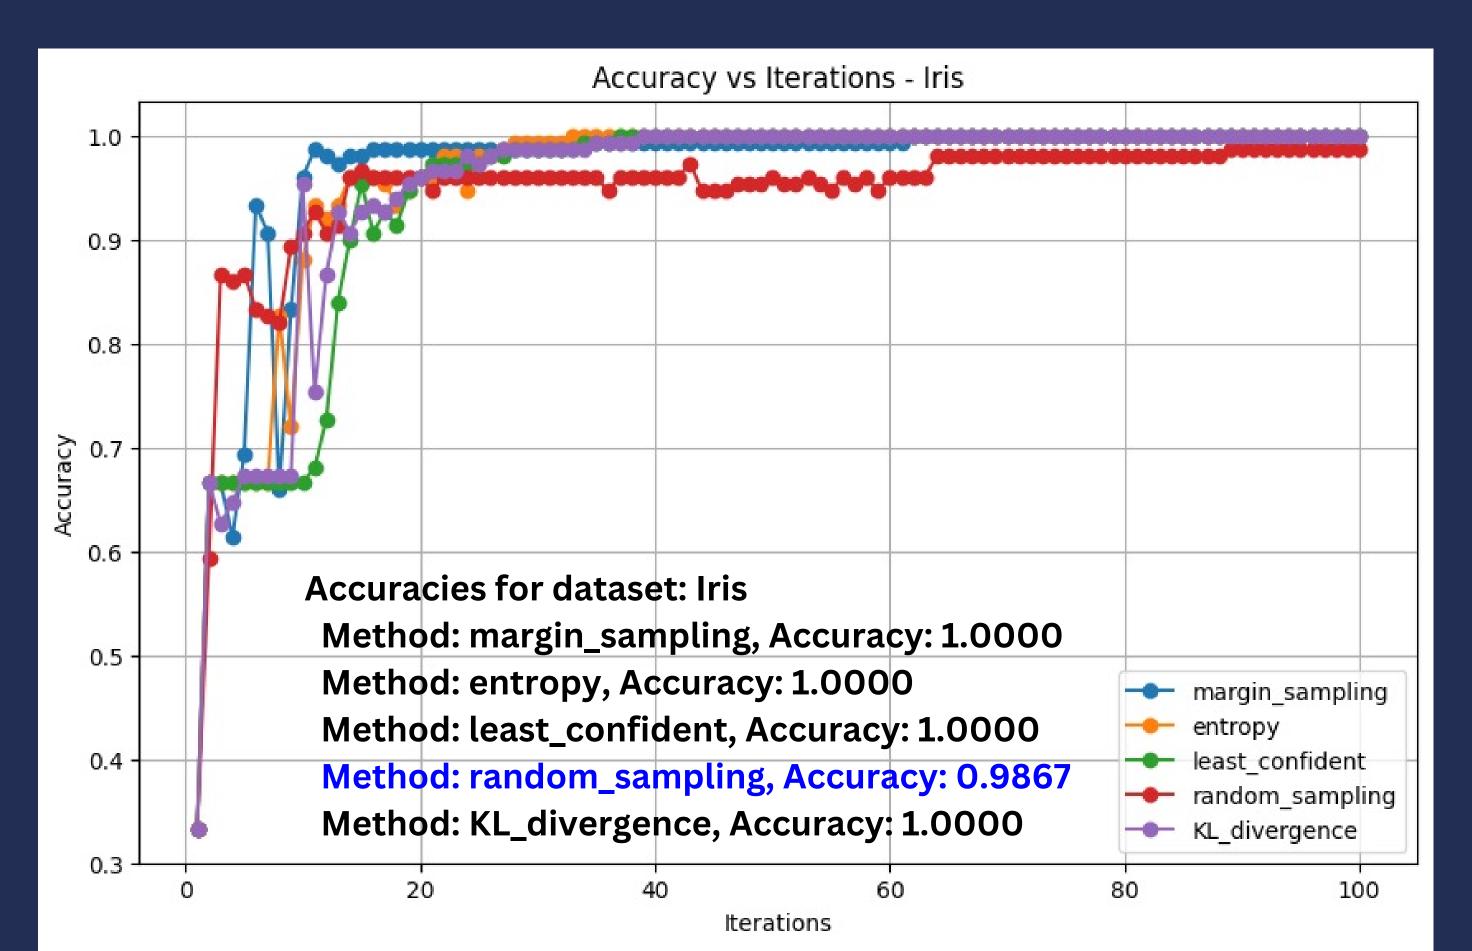

#### **Uncertainty Sampling with Entropy**

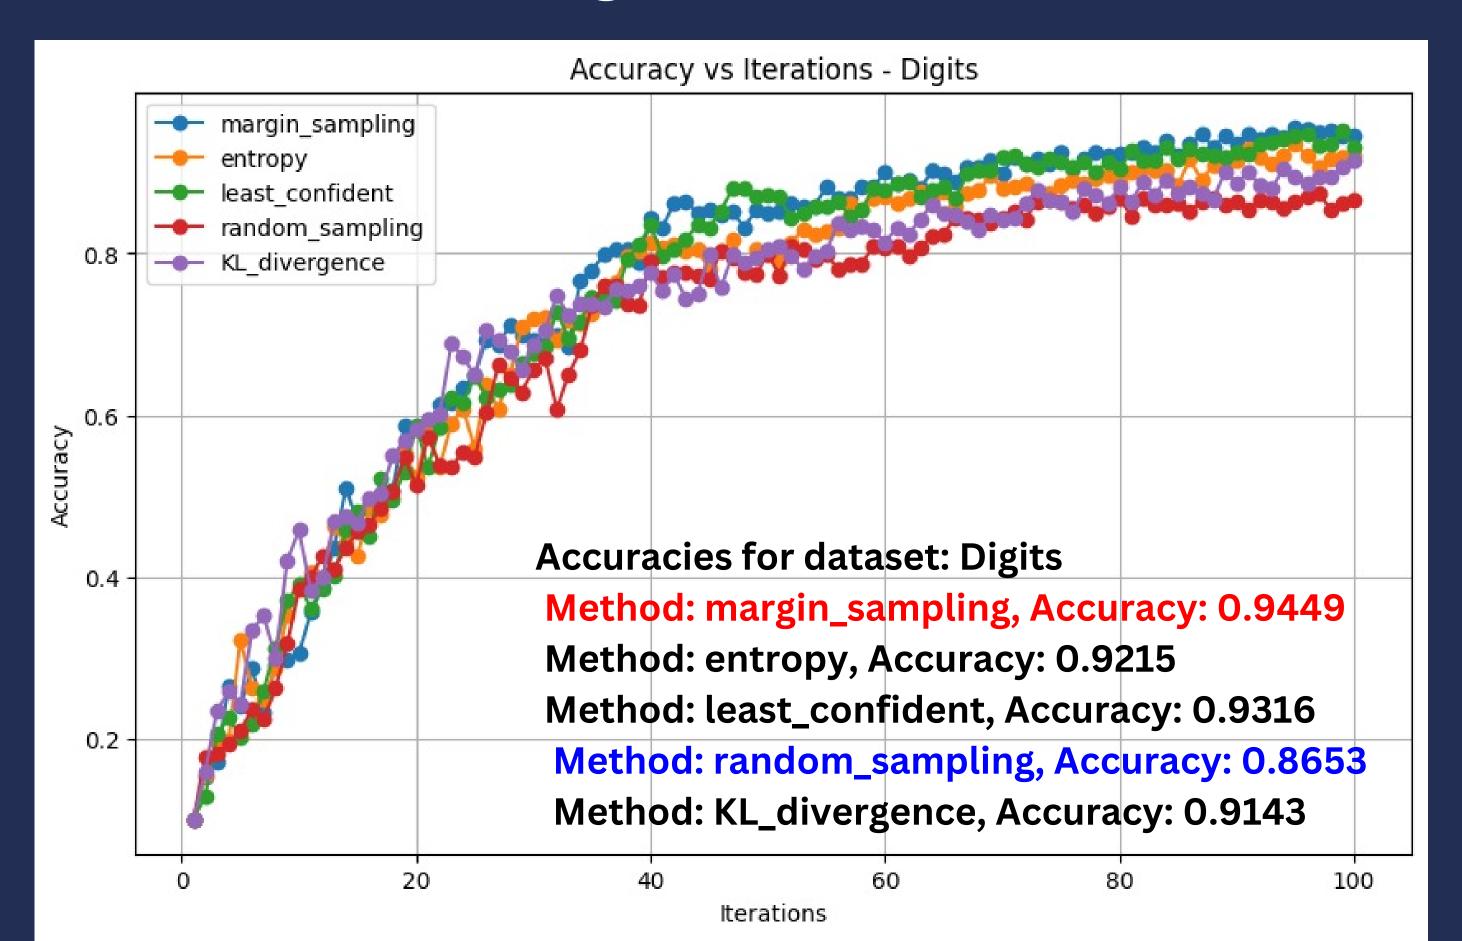

#### **Iris Dataset**

#### **BMI unbalanced Dataset**

Accuracies for a dataset: unbalanced-data Method: margin\_sampling, Accuracy: 0.8060

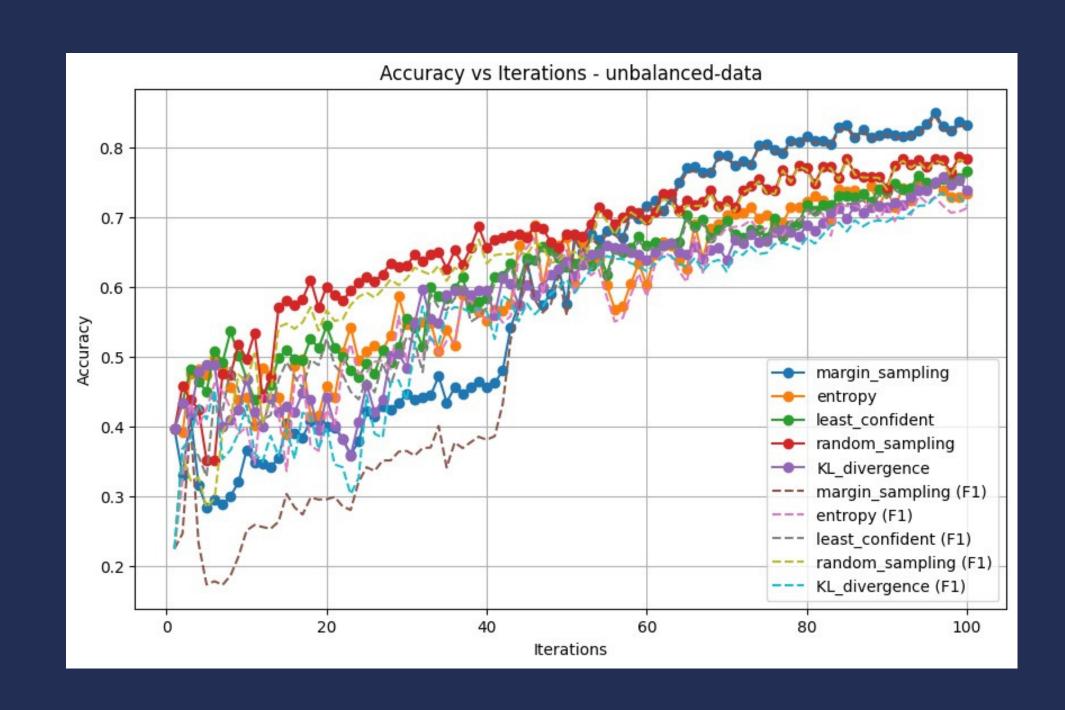

Method: entropy, Accuracy: 0.7840

Method: least\_confident, Accuracy:

0.8040

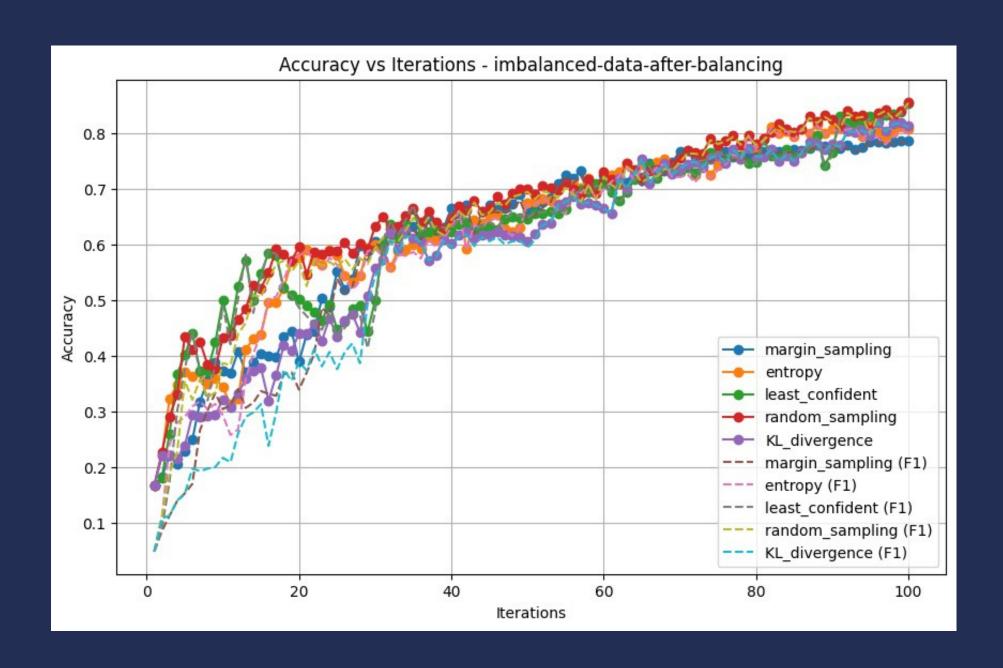

Method: random\_sampling, Accuracy: 0.7700

Method: KL\_divergence, Accuracy: 0.7860

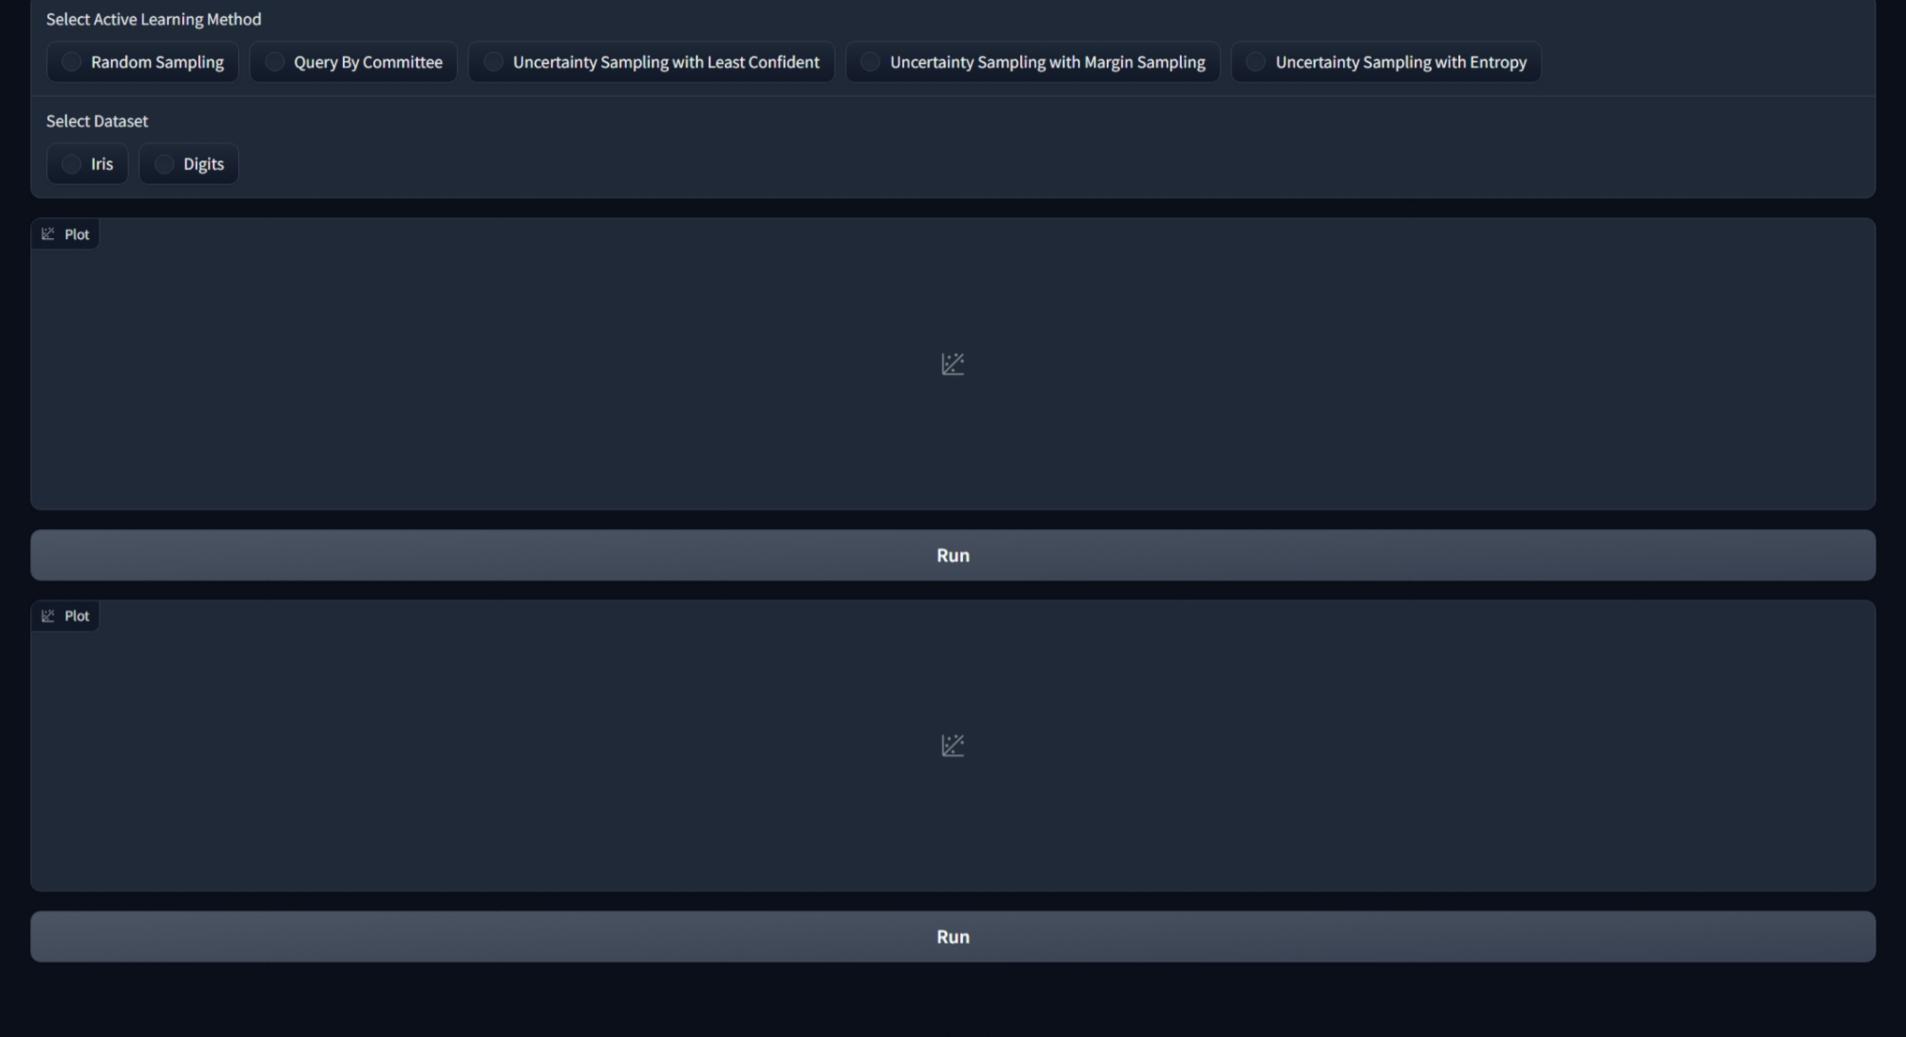

#### **BMI unbalanced Dataset**

Evaluating dataset: imbalanced-data-after-balancing
Accuracies for a dataset: imbalanced-data-after-balancing
Method: margin\_sampling, Accuracy: 0.6978
Method: entropy, Accuracy: 0.8308
Method: least\_confident, Accuracy: 0.8165
Method: random\_sampling, Accuracy: 0.8241
Method: KL\_divergence, Accuracy: 0.7769

## Deployment

# Thank you Dr. Waleed
